

FOR IMMEDIATE RELEASE

## EXCITO RELEASES "BUBBA TWO" – THE SMALL AND QUIET HOME SERVER SOLUTION

Malmö, Sweden 2008-07-17

**BUBBA TWO home server from Excito revolutionizes user behavior for people demanding high accessibility delivered with a smart, flexible and easy to use design. Store your content on BUBBA TWO and access your files anywhere, anytime...**

Placing BUBBA TWO in your home and connecting it to your broadband service lets you to access your media from any location. This and several other brilliant features makes BUBBA TWO fit perfectly as a central hub in your digital home.

Use BUBBA TWO to:

- Serve movies, photos and music to a wide range of home media players such as Soundbridge, Squeezebox, DLink DWL520 etc., without any configuration whatsoever.
- Download your large files (bittorrent, http, ftp) without having to listen to your noisy PC all night.
- Make your files always remote accessible without impact on your electricity bill.

Furthermore, BUBBA TWO has web, ftp and email servers pre-installed. Expanding the storage capabilities is easily done through the USB high speed ports or the dual eSATA ports - the latter also allowing RAID capabilities.

All functionality is accessible through an easy-to-use web interface, allowing regular users to fully utilize otherwise technically complex services. For the tech-savvy users however, customizing your BUBBA TWO is a breeze since it runs Debian, making tens of thousands of applications available for easy installation.

BUBBA TWO can be placed anywhere, it is the size of a pocket book and uses less power than your bedside lamp. No fans make BUBBA TWO almost completely silent.

Key specification list:

- Includes firewall and wireless access point
- Available with up to 1 TB disk size
- Consumes ~10 W power during normal operation
- Physical size: 18 x 11 x 4 cm
- Noise: less than 25 dB
- Linux 2.6 and Debian Etch based

BUBBA TWO becomes available in August 2008, with the wireless option available later this autumn. If you would like further information about this product, request a sample for test or schedule an interview with our CTO, please contact:
